Goal

- I want to develop professionally in the data field, applying knowledge in analysis, automation, and information processing, focusing on generating value through indicators and supporting decision-making.
-

Experience

Autoglass Group (Maxpar Automotive Services Ltd.) - Data Team Intern

March 2026 - Present

- Data manipulation, organization, and analysis using Microsoft Excel.
- Development of dashboards and reports using Tableau; drafting and executing SQL queries against databases.
- Using Python for data extraction, analysis, data science, and data visualization.
- Applying data storytelling techniques to communicate results.

ATI - Automação e Tecnologia da Informação - Intern

September 2025 - Present

- Developing Python scripts for automation and data processing, using libraries such as Pandas, NumPy, and Matplotlib.
- Building ETL routines for collecting, cleaning, and standardizing databases.
- Supporting the analysis of operational indicators and generating reports from structured data.

Education

Federal Institute of Espírito Santo, Serra - *Bachelor's degree in Information Systems*

August 2024 - Present

- Emphasis on innovation, data analysis, automation, and process efficiency.

Federal Institute of Espírito Santo, Serra - *Computer Technician*

August 2022 - September 2024

- Technical course focused on systems development and data analysis skills.

Projects

IAEJOVEM — People Management and Data Analysis Platform

- Development of a system for collecting, organizing, and analyzing data on participants and activities of the social project.
- Modeling and processing databases in MySQL, with a focus on integrity and analytical queries.
- Generating reports and indicators to support decision-making by the project coordination team.

Development Technologies

- Python (Pandas, PySpark, NumPy, Matplotlib, PyEcharts...)
- Data: Snowflake, SQL
- Excel

Skills

Hard Skills:

- AI: ChatGPT and Claude — skills, agents, CLI, prompt design, workflow automation, and data-analysis support.
- Languages: English (Intermediate).

Soft Skills:

- Proactivity, Problem Solving, Teamwork;
